Provo, Aug. 12.—The registration for the Uintah Indian reservation lands, which has been conducted here for the past 12 days, and which is expected to close this evening, has not been so large as was expected by some, and has exceeded the expectations of others. With the close of yesterday's registration 16,211 had filed their applications for a farm with the representatives of the government, who are here for the purpose of receiving applications, and it is probable that when the office closes this evening at 6 o'clock, the number registered will reach close to 20,000.

INFLUX OF STRANGERS.

The influx of strangers has made Provo a busy town for the last 12 days. Some things have not occurred just as they were expected. There was great solicitude in certain outside quarters for the accommodation of the visitors before the rush commenced. It was proclaimed that Provo would not be able to care for the crowd in the way of feeding and lodging the people. This prediction has proved entirely untrue, as no one has been unable to get board and lodging, and that at very reasonable prices. In fact no rates have been advanced by any regular caterer to the public, and the many temporary places of entertainment have followed the same plan of reasonable prices. This is a matter that has elicited much favorable comment from visitors, and one of which Provo may reasonably feel proud. But the surprise has not all been on the side of those who feared or hoped—that the strangers would lack entertainment. Many of our citizens, forming their opinion from reports of other Indian land openings, believed a large crowd of toughs would follow the excited coming to register. Preparations were also made by the city authorities to take care of them, should they come. But they have failed to put in an appearance.

QUIET AND ORDERLY.

The city has been exceptionally orderly. The police records will scarcely show a greater number of arrests than for a similar period under ordinary conditions, and the arrests have been for trivial offenses, over indulgence in liquor refreshments being the principal offense against the ordinance. Every where arrests have been made. The people who have come to register have been an exceptionally fine class of people. They are from nearly every state in the union, the south having the smallest representation. One reason for so many people from distant states registering is the heavy travel for the Lewis and Clark exposition, a number

of excursionists stopping over on the trip to file their application for a homestead. Many and most of these are not people who are really homeseekers, but the temptation to "take a chance" and the opportunity to see a Uth town and Utah people could not be resisted. The farmers and working people, who have applied for land, and who will go to the reservation to make homes if they draw favorable numbers are of a class that will make valuable citizens of the state and assist in its development.

MUCH PUBLIC SPIRIT.

The Commercial club, city council and other public spirited citizens are entitled to great credit for their efforts to take care of the strangers. As soon as it became known that a registration office was to be established in Provo, and the drawing conducted here, committees were appointed by the city council and the Commercial club to arrange for feeding and lodging the strangers, directing them to camping places, etc., and they entered upon their work with a determination to make it a success. With the co-operation of the people generally they soon had matters arranged so that a much larger crowd could have been entertained. Temporary restaurants and eating booths were opened in central places and have been maintained through the period of registration. The question of sleeping accommodations was the most serious, because while the people responded quite liberally by placing rooms and beds at the disposal of the committee, it was feared that this would not be sufficient, and the committee was determined that no one should leave town and be unable to report that he had been unable to find a place to sleep. It was decided to provide tents and cots for such of the strangers as had no accommodations in the hotels and private dwellings.

THE TENTED CITY.

One gentleman who had contemplated the erection of tents for this purpose, concluded the expense would be too great, considering the uncertainty of the returns. Senator Stuart and Col. Loane then became the financial backers of the project, and with Manager L. O. Taft of the Provo & C. M. I. as the business manager had tents and cots provided to accommodate about 500 people. Mr. Taft was told to go ahead and if the venture proved a success, the committee would agree to foot the bill. Mr. Taft, with his accustomed energy, had 150 tents erected on the west half of the court house grounds, and the "City" in two or three days, and they have proved a great convenience, and been well patronized.

THE NOTARIES WERE MANY.

About a hundred notaries and agents opened business in tents on the sidewalks and grounds in addition to the regular offices, and the incoming trains have been met by these gentlemen in such numbers, and the people in passing from the trains to the registration office have been invited to have their affidavits prepared with such frequency and persistency that there is no ground for complaint on the score of being unable to get notarial work done. The notaries have quite generally complied with the agreement entered into with Commissioner Richards to only charge 25 cents for taking the affidavits of applicants, and through this requirement on the part of Commissioner Richards thousands of dollars have been saved to the applicants.

At the registration office the best of order has been maintained. Except the first day, yesterday being the first day, the crowds have not been large, and it has not been necessary to form lines. But when lines have been found there has been no time spent in waiting but the pleasant talks on Uintah county farming, etc. Inside the office the efficient corps of clerks brought here by Commissioner Richards, with W. H. Lewis in charge, have done business in a most expeditious and cautious manner, registering a person each every minute. The work is done so rapidly that some of the applicants can hardly realize they are through when the clerk remarks "that's all," and some of them have moved on to the next clerk, expecting they would have to pass along the line and do some part of the business with each clerk.

WAS A HEAVY DAY.

Yesterday's registration was heavier than any day since the first day, the first day, yesterday being 2,395, with a total registered in the Provo office of 32,711 up to last night. A number of people came in on the trains last night after the office closed and prepared for registration by having their applications made out.

On the evening of the 11th the Commercial club will give a banquet at the Hotel Roberts in honor of Commissioner Richards, Mr. Irving H. Overt of Colorado Springs, and Mr. John Dorn of Salt Lake City, who comprise the commission that will have charge of the drawing. Gov. Cutler and other prominent Utah citizens will be the guests of the club on this occasion.

The Indian reservation to be thrown open next year are the Flathead and Crow reservation in Montana and the Shoshone reservation in Wyoming. Each of these contain more land than the Uintah reservation.

MRS. FRED DUBOIS HURT IN RUNAWAY

Wife of U. S. Senator of Idaho Thrown from a Carriage in Manila

SHE SAVED THE BABY'S LIFE.

At the Peril of Her Own She Seized Dr. Stafford's Infant and Protected It from Harm.

Manila, Aug. 12.—Mrs. Dubois, wife of Senator Fred T. Dubois of Idaho, one of the party now visiting the Philippines with Secy. Taft, was thrown from her carriage during a runaway, and was taken to the hospital in an ambulance, where she lay for three hours unconscious. Her injuries are not dangerous. An examination shows that she is badly bruised and jarred, and the accident will probably interfere with her going on the southern trip with the Taft-Roosevelt party.

On the return trip north of Manila, the party will meet with an accident at every place where a stop is made.

Mrs. Dubois, who was the guest of Dr. and Mrs. Stafford, was out driving with the Staffords, their one-year-old baby and its governess. When the runaway occurred, she seized the baby and saved its life at the peril of her own.

Dr. Stafford is the superintendent of the civil hospital here. Mrs. Dubois is now fully conscious.

Diamond Hunt in Hoboken.

New York, Aug. 12.—A diamond hunt is going on in the ruins of the Lackawanna railroad terminal at Hoboken. There was a vast quantity of baggage in the building at the time of the fire and none of it was saved.

Among other things consumed was a trunk said to have contained \$15,000 worth of diamonds owned by a wealthy New York woman. Private detectives are watching the laborers engaged in clearing the ruins, and the hope is that the diamonds have not been discovered and the railway officials refuse to confirm the story of their loss.

TO STAMP OUT TYPHOID.

Stringent Measures Taken by New York Board of Health.

New York, Aug. 12.—Stringent measures are being taken by the health department to stamp out typhoid fever, which has become almost epidemic in some quarters of the southern section of Brooklyn. It was said last night that Bathing in Gravesend bay from Fort Hamilton to Ulmer park, including Bath Beach and Bensonhurst, will be prohibited unless there is an immediate decrease in the number of cases. If such an order is found necessary, the police will be called upon to aid the department of health and all bath houses will be closed and all beaches patrolled. The sanitary inspectors declare that sewage has contaminated the entire bay front at the places mentioned.

For the week just ended the health department reports 72 deaths from typhoid in greater New York, 44 of which were in Brooklyn, as compared with 59 deaths in July a year ago, 25 of which were in Brooklyn.

ANARCHY IN RUSSIA.

Two More Crimes Added to Daily List of Outrages.

Warsaw, Aug. 12.—The long list of murders resulting from the strike was increased by the assassination of the manager of the Lilipprau Iron works, who was shot down at his residence by strikers.

Radom, Russian Poland, Aug. 12.—The chief of police of this city received many wounds from fragments of a bomb thrown at him today.

RESERVATION MAPS.

Being Rushed to Provo for the Drawing on August 17.

(Special to the "News.")
Washington, D. C., Aug. 12.—A corps of clerks and messengers of the general land office are to-day working like beavers in the endeavor to get into tonight's mail to Provo, Utah, 6,000 maps of a portion of the Uintah reservation, which is to be opened to settlement. With these maps, there are circulars of various character relating to opening and methods of drawing, etc.

These packets are to be sent in bulk to Provo, where drawing for these lands occurs on Thursday, Aug. 17, and each person who may draw an opportunity to start a homestead will be given a map and accompanying circulars to guide him in making his selection. Should a person who has been lucky enough to secure a chance, not be upon the ground, a map and accompanying instructions for his guidance will be immediately mailed to him.

SIX ARE INJURED IN A CENTRAL PARK RUNAWAY

New York, Aug. 12.—Three women and three men were hurt last night in a Central Park runaway accident. Two of the women sustained fractured skulls and one probably will die. Two carriages were in collision, the team attached to one having become frightened at an automobile. The team was a spirited one, and ran wildly through the driveway with the men dragging on the reins in a vain effort to check them.

Near the upper end of the park, where a big crowd was dining, the runaway occurred. The team, which three women, Mrs. Kaufman, Mrs. Senell and Mrs. Mink were riding, horses, carriages and all went down in a heap. The suddenness of the accident caused wild excitement on the verandas of the inn. The diners rushed to the drive and dragged the victims from beneath the wreckage. Two of the women were found badly injured, but all the others are expected to recover.

OBEDIENT HUSBAND DROWNS HIMSELF.

Chicago, Ill., Aug. 12.—Joseph Garrison returned home intoxicated yesterday, and his wife told him to jump into the lake and drown himself. "All right," said Garrison, "I'll do that."

He did, and though he was alive when taken from the water he died in the hospital two hours later. In the pocket of his coat was found this note:

"This is to certify that my wife, Maggie Garrison, told me to leave the house and go to the lake and drown myself. Goodbye, and God forgive her."

Mrs. Garrison became hysterical when informed of her husband's act, and hurried to the hospital, but she arrived a few minutes after his death.

"I was only joking," she said, as she knelt at the side of the bed where lay the body of her husband. "I never thought he would take my words seriously."

SHEA RE-ELECTED.

Defeated Daniel Furman for President of Teamsters.

Philadelphia, Aug. 12.—Cornelius P. Shea of Chicago was today re-elected president of the International Brotherhood of Teamsters by a vote of 129 to 31, defeating Daniel Furman of Chicago.

ANOTHER RE-FLOATED.

Russian Cruiser Pallada Now Added to Jap Fleet.

Tokio, Aug. 12. 11 a. m.—The Russian cruiser Pallada, which was sunk at Port Arthur, was refloated this morning.

Ferral Took Carbolio.

Reading, Cal., Aug. 12.—Walter Ferral, a prominent lawyer and brother of Robert Ferral, assistant district attorney of San Francisco, committed suicide at McCloud last night. He was found this morning in a vacant lot with a bottle that had contained carbolic acid in his hand. He died soon after. Despondency was the cause.

FREE TOBACCO AND SUGAR FROM ISLES

Attitude of Leaders of Opposition Has Materially Changed on Dingley Tariff.

TAFT PARTY GOES ON RECORD

Most of the Members Favor an Amendment of Cooper Bill After Viewing the Conditions.

Manila, Aug. 12.—Now that the Taft party has been in the islands for over a week, a consensus of opinion of the majority of its members on the free admission of Philippine island products into the markets of the United States has been obtained and it can be stated without fear of contradiction, that the attitude of the leaders of the opposition to the policy of a reduction of the Dingley tariff, on sugar and tobacco, has materially changed, since their arrival here.

SILL AND DUBOIS.

Representative S. J. Sill of Connecticut, one of the leaders of the house of the opposition to the further reduction of the tariff on tobacco, declares himself in Philippine products and the attitude of the leaders of the opposition to the policy of a reduction of the Dingley tariff, on sugar and tobacco, has materially changed, since their arrival here.

SHIRLEY ALSO.

Representative Swagler Shirley of Kentucky, an American growing tobacco grower, says he will favor the free admission of island tobacco, being convinced that cigars from there will not compete to any appreciable extent with those manufactured in America.

WILL BE AMENDED.

It can be stated, upon no less authority than that of Representative C. J. H. of Ohio, that the Cooper bill, which was favorably reported upon by the house committee at the last session of Congress, will now be amended, providing for free trade, instead of the proposed reduction of 25 per cent on the prevailing Dingley rates.

S. E. PAYNE TO DO IT.

Representative Grosvenor says: "An amendment will be offered by Representative S. E. Payne of New York, chairman of the committee on ways and means, provided for the free admission of Philippine products and the outlook for its passage is very favorable."

JOY OVER TAFT'S SPEECH.

Secy. Taft's speech defining the political status of the islands and the possibility that their independence will be deferred for a generation at least, and probably longer has strengthened the administration on all hands, and local export merchants are greatly gratified at the attitude taken by the administration, in respect to the present and future government of the islands.

ALAN W. WOOD ILL.

Son of Pittsburgh Steel Magnate At Point of Death.

New York, Aug. 12.—Alan W. Wood, son of W. D. Wood, the Pittsburgh steel magnate, lay at the point of death last night in Roosevelt hospital. Taken violently ill on Thursday afternoon he was operated on that night. Though hope is held out to the members of his family that he may recover it is admitted that the chance is extremely slight.

It was supposed that he was suffering from an attack of appendicitis, but the operation revealed the fact that one of his intestines had been ruptured. The operation was extremely difficult and unusual, and it was feared Mr. Wood could not survive it, but he rallied from its effects and was still alive last night.

He had not been feeling well for several days but as his health has been excellent up to that time, he paid little attention to his illness until it suddenly became so acute that he was
